

## Consent for receiving Digital Scientific and Promotional Content

Dear Pharmacist,

Together we share a common goal: to improve the health and quality of life of patients. Our mission is to help you help your patients to do more, feel better and live longer. Nobody knows your patients like you do and we know our medicines and vaccines.

We have an important role to play in supporting education for healthcare professionals. We know that technology offers you new ways to access the information you need more quickly and easily. So that is why we are expanding the way we work with HCPs to ensure that all our interactions with you are transparent and meet your needs.

Our goal is to provide you with the high quality, balanced and objective information you need when, where and how you want it. We want to continue being a company you can trust by always putting the patient's interest first in every engagement with you.

We will provide scientifically based, reliable and clinically relevant information on our medicines and vaccines as well as pharmacist to patient awareness materials.

As mentioned above, and on behalf of GSK in Saudi Arabia, it gives us a great pleasure that you become a part of our new practice to receive periodical Scientific & Promotional content.

At any point of time you can unsubscribe thorough Un-subscription button in each and every communication sent to your kind side.

Upon signing this consent, you agree to receive Scientific & Promotional content or Surveys from GSK or GSK's 3rd party agencies through different multi-channels including mobile, email and telephone.

GSK is committed to safeguarding the privacy of your personal information and contact details.
